

TIPS for a GOOD POSTER

- A good poster will make people STOP, READ, REMEMBER and TAKE ACTION.
- Read the rules/guidelines carefully and follow the directions.
- Be sure that the information that you put on the poster is correct.
- Do some research about the topic. Go to radon.utah.gov to learn more about what radon is and where it comes from.
- Think of your poster as a billboard advertisement on this topic.
- THINK & BE CREATIVE. Come up with a catchy idea or ideas.
- Start out by drawing or sketching your idea or ideas onto a regular piece of paper.
- Ask adults to critique your ideas and tell you what they think.
- Be neat. Try not to smudge the pencil or markers.
- Be clean. Take breaks and go wash your hands often.
- Green, red, blue or black letters look best on white paper.
- Use short phrases instead of long sentences.
- Do not use different colors for each word or letter. It makes it hard to read.
- Do not draw really small or put too many drawings on your paper – Less is better!
- Color the poster with colored pencils or crayons. Outline your coloring with fine tipped markers!
